- What we liked and what we learned

Summer Programming: Elementary

Elementary Program: Power Summer

- Research based pilot focused on improving summer learning outcomes
- Partnership with TTUSD and the Boys and Girls Club of North Lake Tahoe
- Academics and Enrichment
- Full Day Program

Structure

- 120 students, 60 per site
- Transportation
- Meals
- Full day; five days a week for five weeks
- Whole group project based lessons
- BGC programming & small group instruction
- Instructional aide support
- Priority Enrollment

Phonological Awareness Growth

Foundational Skills Growth

Decoding Skills Growth

Students Liked

- Whole group and small group lessons were fun
- Enrichment activities with the Club
- Time for social interactions
- Felt like camp and low stress

Parents Liked

- The full day made the program accessible
- Students had fun!
- Transportation and meals

Teachers Liked

- Effective small group instruction in math and reading
- Teachers applied *Language Essentials for Teachers of Reading and Spelling* (LETRS) learning to reading instruction
- More time to focus on each student and their needs
- Engaging whole group lessons included daily academic conversations
- Happy kids!

Other Outcomes

- Increased Enrichment
- Professional Learning
- TTUSD staff and Boys and Girls Club(BGC) staff
- Kids new to BGC
- LETRS training
- Collaboration with libraries
- Transportation minimized

“My daughter loved the lesson she taught yesterday about animals. On our ride home last night, after a full day at Club, she shared tons of facts that she learned about animals and their super powers and then wanted to look up more info about Sea Cucumbers once we got home. She was so into it!!! She has had issues with anxiety in new situations and with new teachers so it is so awesome to see her flourishing in this environment. I am so grateful for all you are doing to make this happen for her and for all the kiddos in our Club. How lucky they all are!”

What We Have Learned...

- Impact on our Learners
- Traditional Summer School Teacher Duties
- Research
- Community Partnerships
- Access for our families = Access for our students

Summer Programming: High School Credit Recovery

High School Credit Recovery

Two options for high school students to recover credit and/or to earn a higher grade in a course to meet A-G requirements:

1. Independently using Edgenuity and monitored by a TTUSD teacher **OR**
2. Attend the in person program that combines instruction and support from a TTUSD teacher with individualized instruction via Edgenuity

Program	Independent with Edgenuity	In-person instruction blended with Edgenuity online
Structure	<p>Edgenuity Independent study with teacher monitoring & check-ins</p> <p>Weekly Check Ins</p>	<p>Edgenuity with direct instruction and individual help</p>
Courses	<p>Many courses available for credit recover</p> <p>Students may take only one course at a time.</p>	<p>Courses offered:</p> <p>English (ACMS and KBE)</p> <p>Math (ACMS and KBE)</p> <p>World History (ACMS)</p> <p>Biology (KBE)</p>
Students	<p>Open to all students who would like to earn a grade higher than a “D” or “F” or want to recover credit</p>	<p>Open to all students who would like to earn a grade higher than a “D” or “F” or want to recover credit AND Referred by counselors/teachers</p>

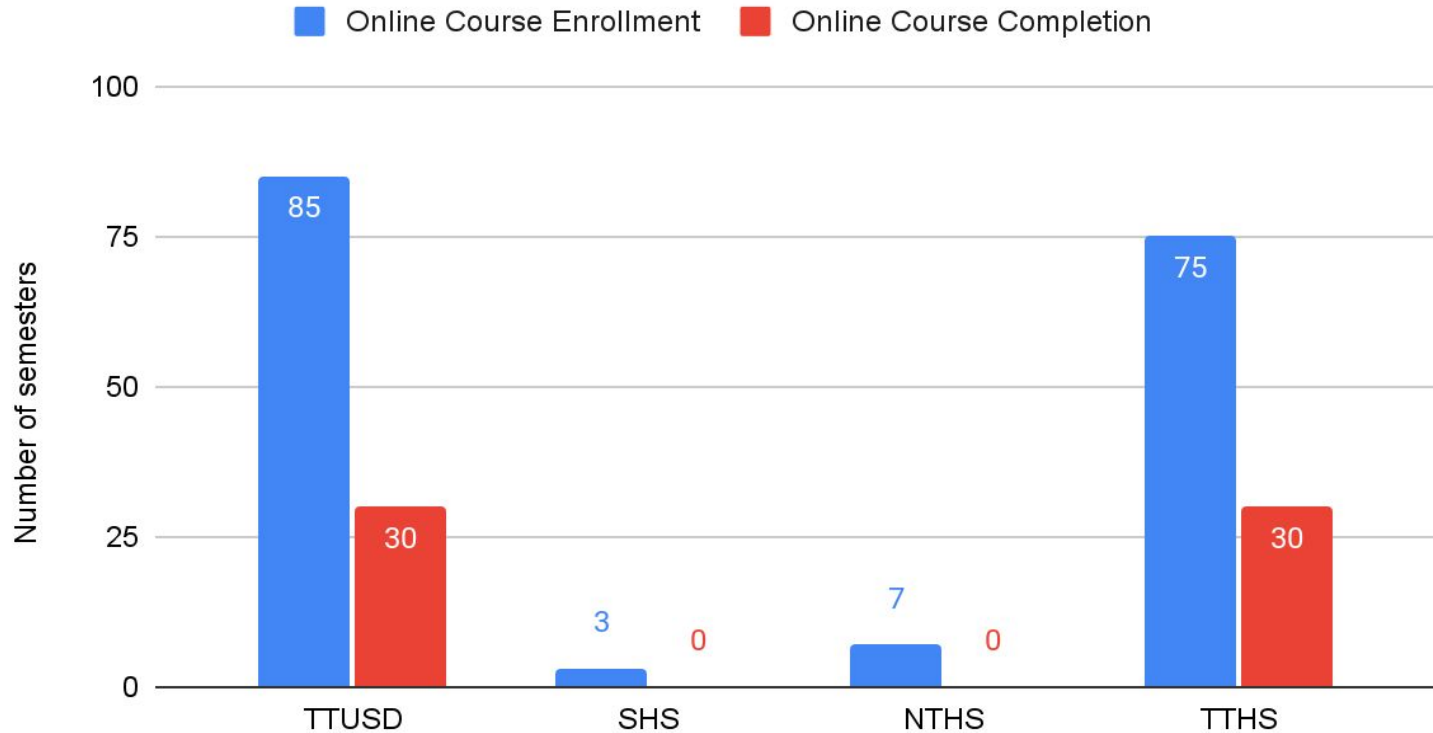

High School Credit Recovery

- Four days a week, half days for five weeks
- Meals available
- Switched from APEX to Edgenuity
- In person and online options

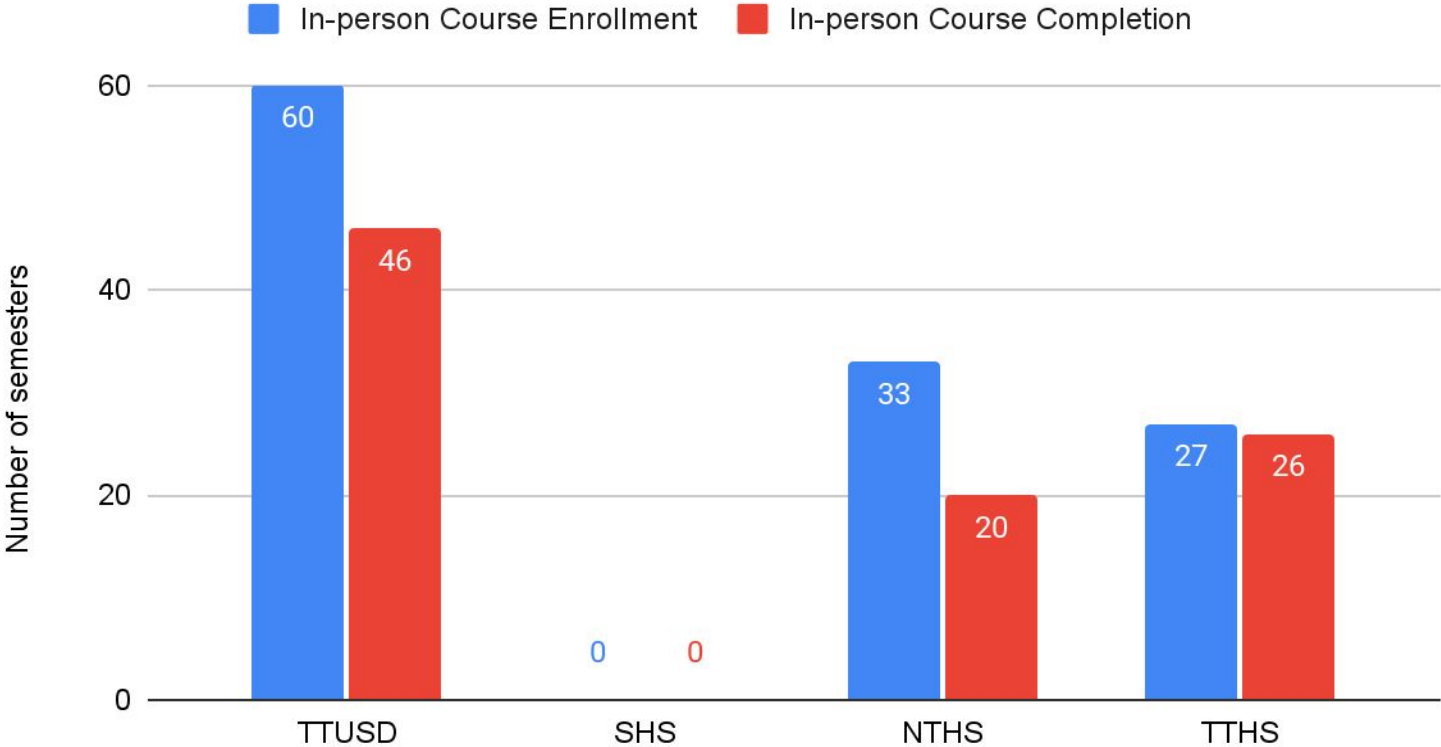

Results

Online Course Enrollment and Completion

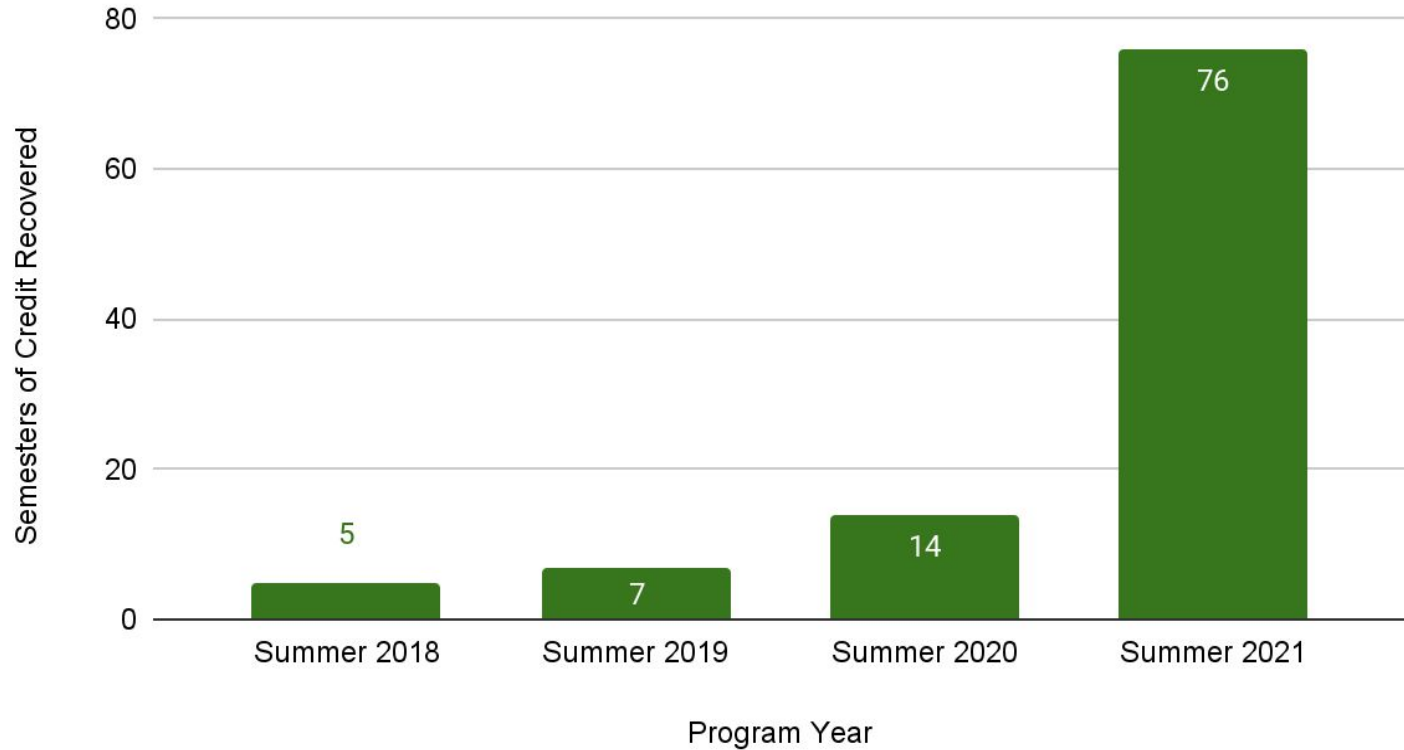

Results

In-person Course Enrollment and Completion

Results

Semesters of Credit Recovered During the Summer

What We Have Learned...

- Impact on our Learners
- In person vs. Online
- Benefits of the new platform
- Opportunities for continued success

Questions

Thank you!

Tara House, Coordinator of ELD and Accountability

Krista Strecker, Coordinator of Power Summer, Truckee

Kate Teller, Coordinator of High School Summer Credit Recovery

Special thanks to Melanie Cooke for LETRS training and support!
