Highlights of Changes to the EL Masterplan

Reclassification:

Extra time may be given for English Learners on the RenLearn STAR Reading tests for students who meet ELPAC reclassification criteria and teacher recommendation for reclassification but do not meet CAASPP (ELA SBAC) or STAR criteria for Reclassification.

The intent of this extra time is to reclassify students who are not able to reclassify due solely to reading issues or processing delays. The extra time does not impact the students' use of language, therefore, students who meet STAR Reading reclassification criteria with extra time will be eligible for reclassification even if they still require reading support.
