ACTION REQUESTED

Approve Resolution No. 30-2024-2025 – National Early Childhood Education Appreciation Day, May 9, 2025

BACKGROUND INFORMATION

Research shows that investment in high-quality early care and learning has a positive long-term effect on children's education and well-being. Many providers have a deep commitment to the healthy development of children, thus playing a vital role in strengthening the families and communities they serve.

Thirty-seven percent of the US workforce is comprised of parents of young children. This means childcare is not just an issue for working parents, but an essential service that impacts the entire local, state, and national economy. Our future depends on the quality of the early childhood experiences provided to young children today and support for high-quality childcare represents a worthy commitment to our children's future.
